

# Structuring and Pitching My Solution

Workshop 4 Worksheet 4

Responding to the following questions will help you prepare to effectively communicate your solution to others. You may wish to refer to this worksheet when you are creating your pitch.

If you were to summarize your solution in one or two sentences, what would you say?

What did you explore in order to decide this is the best solution to solve this challenge? What LMI? Who did you talk to? What else did you find?

How will your solution benefit others?

What other information would be helpful for people to know?

Think about the questions you might be asked. How would you respond to them?
